Descriptions :-

Tos W100 is one of the most successful models produced by TOS VARNSDORF a.s. It is a manually controlled machine, advantages of which are robust frame, high technological versatility and simple operation and maintenance. The borer is an ideal solution for one off and small batch production offering high reliability at low cost. W 100 is of a classical design with fixed column, live spindle, and cross travelling indexing table. Versatility of this machine is enhanced by its headstock having an integrated facing head. The machine design also allows the utilization of long boring bars armed with boring heads and supported by bar rest. For its outstanding performance W 100 has become the most widespread product of TOS VARNSDORF.
